

**QUANTUM DEVICES, INC.**

**QD145 ... HAS A SEALED OPTION..... IP66!**

*With the same “No assembly hassle” or “hidden costs” you have come to rely on!!!!*

**Design Features:**

- Standard Resolutions to 5000 CPR
- Proprietary Optical Sensing System
- 4 to 12 Pole three phase commutation
- Durable Corrosion Resistant Polymer Housing
- Standard 1.812” Bolt Circle mounting
- Hollow shaft sizes up to 10mm(0.395”) Diameter
- High noise immunity
- Made in the USA - ISO 9001 Certified

**Quantum Devices Inc. Barneveld WI. has developed a sealed housing for their QD145 line of encoders. The housing boasts a split clamshell like design that allows for easy access to shaft mounting. Dual O-rings seal the encoder inside the housing, and seal the housing against the encoder mounting surface. Standard 30 degree rotary adjustment is still provided along a 1.812 Bolt Circle Mount. Contact Factory for full info.**
